

His letter of acceptance, which is regarded as a satisfactory document in itself."

FALSIFIED ADS ABOUT MR. BLAINE.
THE STORY OF ONE "HENRY RICHARDS" SHOWS
TO HAVE NO FOUNDATION.

The New-York World on Tuesday printed an especially long interview with one "Henry Richards," in which a number of falsehoods were told about the treatment of workers in coal and iron mines and on railroads in Pennsylvania and West Virginia in which this Mr. "Richards" said Mr. Blaine was largely interested.

E. W. Meigs, the manager of the Baltimore office of the West Virginia Central and Pittsburgh Railroad Company, was found at the Roosevelt Hotel yesterday by a Tribune reporter. He was asked if he knew Mr. Richards, the so-called humorist and laboring man whose talk was published by the *World*. His reply was that he had never heard of him till he read his remarkable statements in *The World*. "In the first place," said Mr. Meigs, "the coalmen and our railroad company, located at Elkhorn Station, West Virginia, have an output of about 200 tons a day. There is not a Hungarian, a Scandinavian or an Italian employed in them. The company pays fifty cents a ton for moving its coal in the drifts and sixty cents a ton for driving headings. I have recently made up the statistics of the miners' wage for the present year, and it is \$1.20 per day. The miners are paid \$1.20 a month and receive \$1.20 in wages. The sum of the miners' wage over \$200 is not paid in cash, but in coal. As elsewhere the miners have better cottages than any other miners in the world. The houses are well built and comfortable, and cost from twenty-five to thirty-five dollars a month."

Meigs says the president, the majority of the directors, and the managers of the coal companies in West Virginia are Republicans. The others are Democrats. S. J. Clegg, Arthur P. Gorman, ex-Senators W. H. Burrows and W. H. Davis; Thomas H. Bates, Alexander Shantz; John S. Harlan, and others, are all Republicans. The managers are all Republicans. The managing director is Arthur P. Gorman. Mr. Gorman is chairman of the Democratic Congressional Committee, and Mr. Burrows is chairman of the Democratic National Committee.

The miners own coal lands in Western Pennsylvania, but no mines are operated on this property. The surface and coal are owned by the miners. They receive the wages, and the coal is sold to the miners. The miners make the profits. The sum of the coal tax more than quadruples the surface rent. The coal surface is mostly good farmland land and for agricultural purposes pays a reasonable return.

In his individual capacity, Mr. Blaine employs no miners, and has no connection with the miners' his interest in none of the West Virginia coal companies, nor has he ever been used by some of the most prominent Democrats on the country.

A FINE RALLY AT BAYSIDE, L. I.
Noltherthundering the storm a large and enthusiastic audience gathered at Bayside, L. I., on Wednesday evening to ratify the nominations of Blaine and Logan. Friends, laymen, and working men from neighboring villages came to express their satisfaction with the new platform. The meeting was called to order by Mr. Hunter, who made a stirring address and then announced the platform and the candidates of the two parties. W. W. Huber was chosen secretary, and resolutions approving the policies of the party and denouncing the administration were adopted.

When the State of Pennsylvania was called, Mr. Huber said: "The name of Mr. St. John was re-

ceived with enthusiastic applause.

W. T. Knott, of Staten, put in nomination Gideon T.

Stewart, of Ohio.

Mr. Knott, of New-Jersey, said that his delegation had a gentleman of some name whom they would like to present, but between their own candidate and Mr. St. John, they were in the position of the injured and the injured left it to him to decide between them (laughed). He had nothing to do with the nomination of St. John, but he had been instrumental in the New Jersey campaign, and was present at his nomination, but he had no right to nominate him and humanity. He referred to the Constitution of the United States, and the fact that the rights of the individual are more important than the rights of the nation.

At the close of the meeting, Mr. Blaine employees no miners, and has no connection with the miners' his interest in none of the West Virginia coal companies, nor has he ever been used by some of the most prominent Democrats on the country.

Louisiana wants Blaine.

FORMIDABLE REVOLT AMONG SOUTHERN BOURGEOISIES.

Governor Walton Declares for the Republican Ticket.

BY TELEGRAPH TO THE TRIBUNE.

NEW-ORLEANS, July 24.—The movement for Blaine and Logan appears to be increasing in this state. The editor of the only anti-German paper published in this state, and a journal of large circulation and much influence among the German population, is no small factor in politics, and though independent, has generally favored the Democrats. In a leading editorial this morning it is said that the movement for Blaine and Logan is now exceeding in importance. The Democratic party, and their public platforms, declare their opposition to the new platform, and that Dr. McDonald was for the cause and not for St. John. He then withdrew the nomination and selected the author of the platform of the party for nomination. Governor St. John, Mr. Price of Pennsylvania, and after withdrawal of the nomination of Mr. St. John, Mr. Stewart of Michigan, and Mr. Stever was withdrawn by the thoughtless delegation with the remark that St. John was still to the taste of the crowd.

DISCORD IN INDIANA.

INDIANAPOLIS, July 24.—The Indiana Prohibitionists have adopted without discussion the second section was characterized by a New Jersey delegate as diffuse, multifarious, and indefinite.

Mr. Hartman of New-Jersey, declared that the platform should have been adopted as it was, referred to the date of the nomination of Mr. St. John, (Chesler.)

When the State of Pennsylvania was called, Mr. Huber said: "The name of Mr. St. John was re-

ceived with enthusiastic applause.
